

Empowering SAP TM 6.0

ActiveSuite™ 6.0

Achieve Real Time Wide Network Visibility

ActiveSuite™ 6.0 is a revolutionary solution that enables shippers and logistics service providers to have full visibility and control over the extended supply chain. ActiveSuite™ 6.0 integrates active event discovery technology to help prevent business disruptions by enforcing logistics plans execution while sharing information on shipment progress in real time. Tightly integrated with SAP ERP and SAP TM 6.0, ActiveSuite™ 6.0 uses eSOA advantages to ease IT integration challenges and increase agility, operational excellence and productivity.
